# Records Retention Schedule LG2

## Municipal Finance Director

This Records Retention Schedule has been developed by the Rhode Island Local Government Records Program of the State Archives in an effort to assist government officials in the proper management of public records.

The schedule consists of seventy-five (75) separate sets of records, or series, recognized as those records generated by the municipal clerk. Included in each entry is a series number, records series title and description, and a retention period. For example,

### **LG2.1.1      Accounts Payable Records**

Records that document all monies expended by the municipality. Includes but is not limited to payroll, travel expenditures, insurance, pension and investments, and rotary fund expenditures.

Retention:      Retain six (6) years after audit.

The retention periods set forth in this document are minimum periods and are the result of analysis on the part of the State Archives concerning the legal, fiscal, administrative, and historical value of the records. Because many retention periods are based on state and federal statute and regulation, updates to this schedule may be issued to incorporate any changes.

Proper procedures for the destruction of public records must be adhered to. Records that are eligible for destruction can only be legally destroyed with an approved "Certificate of Records Destruction" (§38-1-10, §38-3-6 (j), and §42-8.1-10). A Certification of Records Destruction form and instructions are included with this schedule. State Archives staff members are always available to answer questions you might have regarding any records issues.

**Local government officials should also consult with the municipal solicitor to determine if any records eligible for destruction may be involved in current, pending or anticipated litigation, any government investigation or regulatory proceeding, or request under the Access to Public Records Act (RIGL §38-2).**

2. Division - means any sub-unit of any department.
