

0304 TECHNICAL ELIGIBILITY REQUIREMENTS

0304.05 REQUIREMENTS OF CITIZENSHIP/ALIENAGE

REV:06/2008

An individual must meet the requirement for citizenship or immigration status in order to qualify for Medical Assistance.

The Federal Deficit Reduction Act of 2005 as well as Public Laws 104- 193, 104-208 and 105-33 restricted eligibility for federally reimbursed Title XIX Medical Assistance to U.S. citizens and certain "qualified" non-citizens. Public Law 105-306 restricted eligibility to lawfully residing non-citizens who receive SSI. R.I.G.L. 40-8-1 and 42-12.3 provide the legal authority to extend State-funded Medical Assistance to pregnant women and to certain lawfully residing groups of non-citizens, who are ineligible for Title XIX solely due to immigration status requirements.

To meet the citizenship/immigration status requirement for Medical Assistance, an otherwise eligible individual must be a member of one of the following categories:

- 0 U.S. citizen or national (Title XIX);
- 0 (A) a qualified non-citizen described in Section 0304.05.15(sub-section A), and (B) who entered the U.S. prior to 8/22/96 (Title XIX);
- 0 A qualified non-citizen described in Section 0304.05.15(A) who entered the country on or after 8/22/96, and is exempt from the five (5) year ban (Title XIX);
- 0 After the five (5) year ban, a qualified non-citizen described in Section 0304.05.15(B), who entered the U.S. on or after 8/22/96 (Title XIX);
- 0 A lawfully residing member of the state-funded coverage group described in Sections 0304.05.45 and 0304.05.45.05 (State-funded); or
- 0 A pregnant woman or child under the age of nineteen (19) as described in Section 0348

Note: Title XIX Medical Assistance for emergency services as stated in DHS Policy Section 0316.10 is accessible to

individuals regardless of immigration status, provided they are residents of Rhode Island and meet all other financial and non-financial criteria for the Medical Assistance Program. This includes persons who, but for citizenship status, meet the criteria for MA under SSI-related, family-related, or Rite Care rules. In addition, each applicant must have a medical condition (including emergency labor and delivery) manifesting itself by acute symptoms of sufficient severity (including severe pain) such that inpatient hospital or hospital emergency room treatment is required.

0304.05.05 The SAVE Program

REV:06/2008

The Immigration Reform and Control Act of 1986 mandated the establishment of the Systematic Alien Verification for Entitlements (SAVE) Program. SAVE enables states and federal assistance programs to exchange information regarding the immigration status of aliens applying for benefits under certain programs, including Medical Assistance.

Unless exempt, applicants for Medical Assistance programs must declare in writing that they are United States citizens or nationals, or that they are in "satisfactory immigration status".

The DHS/SAV-1 is used for the declaration of citizenship or alienage. Applicants for emergency services only, and undocumented pregnant women who are applying for state-funded Rite Care or Rite Share coverage only, are exempt from the SAVE requirement.

Verification of U.S. citizenship or naturalized citizen status is accomplished by the applicant providing a valid documentation per Section 0304.05.10.05.

Proof of "satisfactory immigration status," includes the following:

- o Alien registration documentation of proof of immigration registration from the USCIS containing the alien's admission or file number; or
- o Such other documents as constitute reasonable evidence of satisfactory immigration status (see Sections 0304.05.25 - 0304.85.15).

For SAVE participation and procedural requirements, see 0104.40 through 0104.75.

0304.05.10 Eligibility as a United States Citizen

REV:06/1994

A United States citizen is defined in the Immigration and Nationality Act as any person born in any of the 50 States, the District of Columbia, Puerto Rico, Guam or the United States Virgin Islands. Nationals from American Samoa or Swain's Island are also regarded as United States citizens, as are those persons who are naturalized U.S. Citizens.

0304.05.10.05 Verification of Citizen Status

REV:11/2006

Effective July 1, 2006, in conformance with the federal Deficit Reduction Act of 2005, both applicants and recipients for Medical Assistance must submit verification of both citizenship and identity.

This policy does not apply to persons receiving SSI, Medicare, or who are not US Citizens.

Individuals who are not U.S. citizens must comply with the alienage requirements of the Personal Responsibility and Work Opportunity Act of 1996 (P.L. 104-193) (PRWOA) and may not be eligible for Title XIX Medical Assistance benefits. Unless exempt, qualified non-citizens entering the U.S. on or after August 22, 1996 are subject to a five (5) year ban during which they are ineligible for full Title XIX Medical Assistance benefits. Non-qualified non-citizens are not eligible for Title XIX Medical Assistance benefits.

Acceptable verification of citizenship is divided into four (4) tiers.

Applicants/recipients submitting documentation from the First Level (Primary documentation) satisfy both the citizenship and identity requirements. Applicants and recipients born outside of the United States who were not U.S. citizens at birth, must submit a document listed under the First Level (Primary documentation) as evidence of U.S. citizenship.

If documentation from the First Level of citizenship documentation is not available, then the applicant/recipient must submit both a document from one of the lower levels of citizenship documentation as well as a document from the list of acceptable forms of identity documentation. Primary and Secondary levels of documentation must be exhausted before third level documentation is used to verify citizenship as third level documentation is only acceptable if primary and secondary documentation cannot be obtained or does not exist.

Fourth level documentation should only be used under the rarest of circumstances. It is only to be used when absolutely no other documentation exists that will establish the individual's U.S. citizenship.

CITIZENSHIP

FIRST LEVEL (PRIMARY)

The following forms of documentation qualify as both proof of citizenship and identity:

--A U.S. Passport

NOTE: U.S. Passport does not have to be currently valid to be accepted as proof of citizenship. However, do not accept any passport as evidence of U.S. citizenship if it was issued with a limitation. Passports possessing a limitation may only be used for proof of identity.

--A Certificate of Naturalization (Forms N-550 or N-570)

--A Certificate of U.S. Citizenship (Form N-560 or N-561)

If the applicant/recipient does not possess any of the above forms of documentation, then documentation of both the individual's citizenship (preferably from the Secondary tier of documentation) and identity is necessary.

SECOND LEVEL (SECONDARY)

--A U.S. Birth Certificate

--A Certification of Birth Issued by the Department of State (Form DS-1350)

--A Report of Birth Abroad of a U.S. Citizen (Form FS-240)

--A Certification of Birth Issued by the Department of State (Form FS-545 or DS-1350)

--A U.S. Citizens I.D. Card (Form I-197 or prior version I-179)

--An American Indian Card, I-872 issued by the Department of Homeland Security with the classification code "KIC" issued to identify U.S. citizen members of the Texas Band of Kickapoos living near the U.S./Mexican border

--Final Adoption Decree showing the child's name and U.S. birthplace

--Evidence of Civil Service employment by the U.S. government before June 1976

--An official military record of service showing a U.S. place of birth

--A Northern Mariana Identification Card, I-873 (issued by the INS to a collectively naturalized citizen of the United States who was born in the Northern Mariana Islands before November 4, 1986)

THIRD LEVEL

- Extract of a hospital record on hospital letterhead established at the time of the person's birth and was created at least five (5) years before the initial application date and that indicates a U.S. place of birth. (For children under sixteen (16) years old the document must have been created at or near the time of birth or five (5) years before the date of application.)
- Life or health or other insurance record showing a U.S. place of birth and was created at least five (5) years before the initial application day.

FOURTH LEVEL

- Federal or state census record showing U.S. citizenship or a U.S. place of birth
- Institutional admission papers from a nursing home, skilled nursing care facility, or other institution and was created at least five (5) years before the initial application date and indicates a U.S. place of birth.
- Medical (clinic, doctor, or hospital) record created at least five (5) years before the initial application date that indicates a U.S. place of birth. (For children under sixteen (16) years old the document must have been created near the time of birth or five (5) years before the date of application.) NOTE: An immunization record is not considered a medical record for purposes of establishing U.S. citizenship.
- Other documents that were created at least five (5) years before the application for Medicaid. These documents include:
 - Seneca Indian Tribal Census Report,
 - Bureau of Indian Affairs Tribal Census Records of the Navajo Indians,
 - U.S. State Vital Statistics Official nomination of birth registration,
 - An amended U.S. public birth record that is amended more than five (5) years after the person's birth or statement signed by the physician or midwife who was in attendance at the time of birth.
- A written affidavit which may be used only in rare circumstances when the state cannot prove evidence of citizenship in any other way. Affidavits must be given by at least two individuals-one must be of no relation to the applicant. Each person must attest to having personal knowledge of the events establishing the applicant is a citizen, and must also prove their own citizenship and identity. If the person knows why documentary evidence establishing the applicant's claim of citizenship is not available, the affidavit should contain that information as well. The State must obtain a separate affidavit from the applicant/recipient or other knowledgeable individual explaining why the evidence does not exist or cannot be

obtained. It must be signed under penalty of perjury by the person making the affidavit.

IDENTITY

The following forms of documentation qualify as proof of identity and must accompany any documents establishing citizenship that were submitted from the second, third, or fourth levels of citizenship documentation.

- A current U.S. state or territory driver's license bearing the individual's picture or other identifying information such as name, age, sex, race, height, weight, or eye color
- Certificate of Indian Blood, or other U.S. American Indian/Alaska Native tribal document
- Any identity document described in Section 274A(b)(1)(D) of the Immigration and Nationality Act
- School identification card with a photograph of the individual
- U.S. military card or draft record
- Identification card issued by the Federal, State, or local government with the same information included on the driver's license issued by the Federal, State, or local government.
- Military dependent's identification card
- Native American tribal document
- U.S. Coast Guard Merchant Mariner card
- Cross match with federal or state government agency, including but not limited to Vital Statistics and Division of Motor Vehicles.

In addition to the above identity documents, children who are sixteen (16) years of age or younger may prove their identity through the use of the following documents:

- School records including nursery or day care records
- Affidavit signed under penalty of perjury by a parent or guardian attesting to the child's date and place of birth.
NOTE: This cannot be used if an affidavit was submitted to document citizenship.

Various "documents" issued by an organization called the World Council of Washington, D.C. are considered bogus and unacceptable as evidence of identity, citizenship, age, etc., for enumeration or other official purposes. These "documents" include: World Birth Certificates, World Citizen Cards, World Identity Cards, and World Marriage Certificates.

REASONABLE OPPORTUNITY

Applicants/recipients will be given a reasonable opportunity to present documents that establish U.S. citizenship and identity.

Recipients will not have their Medical Assistance terminated for failure to provide the required documentation of citizenship and identity so long as they demonstrate a good faith effort to present satisfactory documentation. Reasonable opportunity period for recipients is defined as 90 days after first date of redetermination after July 1, 2006.

Applicants will not be eligible to receive Medical Assistance benefits until they have presented the required documentation of citizenship and identity. Applicants have thirty (30) days from the time the application is filed to submit documentation of citizenship and identity. After the thirty (30) day period, eligibility will be denied for applicants who did not submit acceptable proof of citizenship and identity.

The agency will assist an applicant or recipient to document their U.S. citizenship and identity if they:

- o Are unable to obtain the required documents, and
- o Require assistance (i.e. are homeless, mentally impaired, or physically incapacitated), and
- o Do not have someone who can act on their behalf.

Medicaid applicants and recipients are allowed to submit proof of citizenship and documentation to the Department of Human Services (DHS) through an authorized representative. Authorized representatives are defined as Family Resource Counselors, hospitals, community health centers and Medical Assistance providers. Authorized representatives who accept documentation of citizenship and identity will transmit this documentation to DHS.

CHILDREN

Children born to foreign diplomats residing in the United States and/or its territories are not citizens of the United States.

B. QUALIFIED NON-CITIZENS SUBJECT TO THE FIVE (5) YEAR BAN:

The following "qualified" non-citizens are subject to the five (5) year ban. They meet the immigration requirement and are potentially eligible for Title XIX

benefits if they entered the U.S. prior to 8/22/96. When entering the U.S. on or after 8/22/96, they meet the immigration requirement for Title XIX Medical Assistance only after the five (5) year ban described in Section 0304.05.15.05.

0304.05.15.05 *Five Year Ban*

REV:01/2007

Unless exempt, qualified non-citizens entering the U.S. on or after 8/22/96 are subject to a five (5) year ban during which they are ineligible for full Title XIX Medical Assistance.

Qualified non-citizens subject to the five (5) year ban are ineligible for Title XIX Medical Assistance (except for emergency services) for a period of five (5) years. The five (5) year period of ineligibility begins on the date the qualified non-citizen entered the U.S., or the date a previously unqualified non-citizen attained qualified non-citizen status.

To determine the five (5) year ban:

- 0 From USCIS Form I-94, the date of the qualified non citizen's admission is the start of the five (5) year ban on Title XIX eligibility;
- 0 If the non-citizen presents a USCIS grant letter or court order, derive the date qualified non-citizen status was granted from the date of the letter or court order. This date starts the five (5) year ban.
- 0 If the non-citizen presents an employment authorization document, ask the individual to present Form I-94. If Form I-94 is not available, further contact with USCIS will be needed to ascertain the date status was granted. Obtain signed release or signed SAVE-1 before contacting USCIS.

Note: Eligibility for Title XIX emergency services may be established during the five (5) year ban period.

Pregnant women who are ineligible for full Title XIX benefits due to the five (5) year ban, may establish eligibility for state-funded coverage. (See Sections 0305.05.45 and 0348.)

EXAMPLES:

1. Mr. W, age 67, was admitted to the U.S. as an LPR on August 29, 2006. He is ineligible for full Title XIX benefits for a period of five (5) years, beginning August 29, 2006.
2. Mr. W, age 67, was admitted to the U.S. as a refugee on August 29, 2004. On January 1, 2006 his status was adjusted to LPR. As a refugee Mr. W was exempt from the five (5) year ban and potentially eligible for MA regardless of his date of entry into the U.S. He retains that exemption for a period of five (5) years even though his status has been adjusted to that of LPR. Mr W is not subject to the five (5) year ban and is potentially eligible for full Title XIX benefits.
3. Mrs. P entered the U.S. on 7/15/96 with Temporary Protected Status. She adjusted to LPR status on 9/15/98. Since she entered the U.S. prior to 8/22/96, she is not subject to the five(5) year ban imposed on LPRs. She is potentially eligible for Title XIX MA on 9/15/98.

0304.05.20 Eligibility as an Amerasian

REV:01/2007

Amerasians born in Vietnam between January 1, 1962 and January 1, 1976 and residing in Vietnam as of December 1987 who were fathered by an identified U.S. citizen may be granted immigrant visas and may have a claim to U.S. citizenship under Section 301(g) of the Immigration and Nationality Act, as made applicable by Section 309(a) (amended November 14, 1986).

These individuals meet the Title XIX immigration status requirement regardless of date of entry into the U.S.

0304.05.20.05 Verification of Amerasian Status

REV:01/2007

Verification of Amerasian immigrant status includes:

- 0 Unexpired temporary I-551 stamp in a foreign passport or on USCIS Form I-94 with code AM1, AM2 or AM3i or
- 0 USCIS Form 551 annotated with code AM6, AM7 or AM8.

0304.05.21 Elig as a Lawful Permanent Resident (LPR)

REV:06/2008

A lawful permanent resident (LPR) is one who was lawfully admitted for permanent residence in accordance with the immigration laws.

LPRs who entered the U.S. prior to 8/22/96 meet the immigration status requirement for Medical Assistance and are not subject to the deeming of income and/or resources from their sponsor(s).

LPRs who entered the U.S. on or after 8/22/96 (except honorably discharged veterans, members of the U.S. Armed Forces, their spouses and unmarried dependent children) are ineligible for Title XIX Medical Assistance benefits (except for emergency services) for five (5) years from their date of entry. Non-citizens who entered the U.S. with a non-qualified immigration status (or no immigration status) but who later adjust to an LPR status are ineligible for five (5) years from the date LPR status was granted.

Example: John entered the U.S. on September 20, 1996 and was granted Temporary Protected Status. On March 20, 1997, he was granted LPR status. If otherwise eligible, he qualifies for Title XIX MA beginning March 20, 2002, five (5) years from the date LPR status was granted.

Eligibility for refugees, asylees, Amerasians, and individuals whose deportation has been withheld under Section 243(h) of INA whose status is subsequently adjusted to LPR is determined under the original status for five (5) years from their date of entry in the U.S. That is, they are not subject to the five (5) year ban.

Example: Sally entered the U.S. with refugee status on August 30, 1996. On January 1, 2000, her status was adjusted to LPR. For purposes of determining eligibility for MA, she is treated as a refugee for five (5) years from her date of entry. As such, she is not subject to the five(5) year ban; and if otherwise eligible, qualifies for Title XIX MA from date of entry.

Otherwise eligible pregnant women may receive state funded Rite Care or Rite Share benefits during the five (5) year ban.

SPONSOR DEEMING

Lawful permanent residents, sponsored by an individual or individuals, entering the U.S. on or after 12/19/97 under the new, legally binding affidavit of support (I-864), must as a condition of eligibility for MA, provide information and documentation from their sponsor(s) in support of their immigration application and are subject to the deeming of the sponsor's income and resources in the determination of eligibility for MA. Deeming provisions apply only to LPRs sponsored by individuals (family based and some employment based immigrants) applying for Title XIX or State Funded Medical Assistance. Deeming provisions do not apply to dependent children of the sponsor or of the sponsor's spouse, to immigrants sponsored by organizations, or with regard to eligibility for emergency services. (See Section 0304.05.90 for a more detailed discussion on deeming.)

0304.05.21.05 *Verification of LPR Status*

If an applicant presents an expired USCIS document or is unable to present any document demonstrating immigration status, refer the person to the Providence USCIS office to obtain evidence of status unless he or she can provide an alien registration number. If the applicant provides an alien registration number, request permission to send USCIS Form G-845 along with the alien registration number to USCIS, to verify status. The application may be held in a pending status for up to thirty (30) days awaiting verification of status.

0304.05.25 Elig as an Amer Indian Born Outside the US

Such individuals meet the immigration requirement for Title XIX Medical Assistance regardless of date of entry into the U.S.

To determine if the applicant was lawfully residing in the U.S. prior to 8/22/96 use the following:

0304.05.90 Sponsor Deeming

REV:01/2007

Under deeming provisions, the income and resources of the sponsor(s) are counted as available and received, even if not in fact received, by the applicant. Income and resources of the sponsor include those of the sponsor's spouse, when living together.

Qualified non-citizens who entered the U.S. prior to 12/19/97 are not subject to sponsor deeming provisions. Non citizens who entered the U.S. on or after 12/19/97 are subject to deeming of income and resources from their sponsor(s) as follows:

1. Deeming applies only to LPRs:

- o Who are sponsored by an individual or individuals.
(This groups includes family based immigrants and some employment based immigrants whose employer is a family owned business. It does not include non-citizens who are sponsored by agencies or organizations.) AND

- 0 Whose sponsors signed new, legally binding affidavits of support (USCIS form I-864).
2. Deeming provisions may be waived for a period for one (1) year in the following situations:

0 When sponsored immigrant can demonstrate that:

- a) they or their children have been battered or subjected to extreme cruelty while in the U.S. by certain persons who were living in the same household; and
- b) the battery has a substantial connection to the need for Medical Assistance benefits; and
- c) the immigrant no longer resides in the same household with the abuser.

Documentation of abuse in the U.S. includes but is not limited to: an approved USCIS petition, restraining order, third party affidavit, signed affidavit from the applicant, or school, medical, public or private agency records.

There is a substantial connection between battery suffered by the immigrant or the immigrant's child if Medical Assistance benefits are needed:

- * to enable the immigrant or the immigrant's child to become self-sufficient following separation from the abuser;
- * to enable the immigrant or immigrant's child to escape the abuser or the community where the abuser lives, or to ensure the safety of the immigrant or child from the abuser;
- * due to a loss of income suffered as a result of separation from the abuser;
- * because the immigrant or child is disabled as a result of the abuse;
- * to provide medical care for pregnancy resulting from the abuser's sexual assault of, or relationship with the immigrant, the immigrant's child or to care for any resulting children; or
- * to replace medical coverage or resources the immigrant or child had when living with the abuser.

This twelve month waiver can be renewed if the immigrant demonstrates that the battery or cruelty has been recognized in the order of a judge or administrative law judge or a prior determination of the USCIS and the Department agrees that the need for MA benefits remains the same.

- 0 OR when the sponsored immigrant is determined by the department to be indigent, defined as unable to obtain

food and shelter (taking into account the immigrant's income, plus any cash, food, housing or other assistance provided by the sponsor or another individual). In this case, only the income and resources actually provided by the sponsor or the sponsor's spouse are counted in the determination of MA eligibility. However, DHS must provide the Attorney General with the name of the sponsor and the sponsored immigrants receiving MA under this provision, and the sponsor has the obligation to reimburse the Department for any benefits paid, with the exception of payments made for emergency services.

This twelve (12) month waiver can be renewed if the Department determines that the immigrant continues to meet the above criteria.

- 0 If a waiver is granted, only the income and resources actually provided to the applicant by the sponsor are considered in the determination of eligibility for MA.
 - 3. Deeming provisions do not apply to eligibility determinations for emergency services only.
 - 4. Deeming continues until the earlier of:
 - 0 Naturalization (i.e., the individual attains U.S. citizenship); or
 - 0 The qualified non-citizens being credited with forty (40) hours of work as defined under Title II of the Social Security Act, providing that no credit is given for any quarter after 12/31/96 in which any federal means tested benefit was received.
- Immigrants may be credited with quarters from their own employment, their spouse's employment, and their parent's employment. Verification of qualifying quarters must be obtained from Social Security Administration records. A written statement, signed by the applicant under penalty of perjury, may be used as temporary verification of quarters worked while awaiting information requested from Social Security.
- 5. The methodologies for determining the amount of income and resources deemed to the sponsored immigrant are described in Sections 0330 (family related income), 0366 (SSI related-income), 0388 (LTC-income), 0338 (family related resources), 0356 (SSI related resources), 0382 (LTC resources) .

0304.10 RESIDENCY REQUIREMENT

REV:06/1994

The Medical Assistance Program exists primarily to meet the needs of residents of the Rhode Island. Therefore, as a factor of eligibility, an individual who is applying for eligibility must be a resident of the state. Any person living in the state voluntarily and intending to make Rhode Island his/her home, for whatever reason, is a resident of the state.

0304.10.05 MA Residency Requirements

REV:01/2002

The residency definitions apply to SSI individuals, MA families, MA individuals age 21 and over, MA individuals under twenty one (21), and institutionalized MA individuals.

0304.10.05.05 SSI Individual

REV:06/1994

For an individual eligible for SSI and receiving a State Supplementary Payment (SSP), the State of Residence is the state paying the SSP. (In some instances, a person may have sufficient income to receive only the State Supplement.)

0304.10.05.10 MA Families

REV:01/2002

For individuals and families applying for MA based on family-related (formerly AFDC-related) rules, a resident of the state is a person:

- o Who is living in Rhode Island voluntarily with the intention of making his/her home there, and not for a temporary purpose. A child is a resident of the state in which (s)he is living other than on a temporary basis. (Residence may not depend on the reason for which the individual entered the state except insofar as it may bear upon whether the individual is there voluntarily or for a temporary purpose); or,
- o Who, at the time of application, is living in the state, is not receiving assistance from another state, and entered the state with a job commitment or seeking employment in the state (whether or not currently employed). Under this definition, the child is a resident of the state in which the caretaker relative is a resident.

0304.10.05.15 *MA Individual Over 21*

REV:06/1994

For an individual over age 21 applying for MA, not living in an institution, the State of Residence is the state where the individual is:

- o Living voluntarily with the intention to remain permanently or for an indefinite period (or if incapable of stating intent, where (s)he is living); or,
- o Living voluntarily, is not receiving assistance from another state, and which (s)he entered with a job commitment or seeking employment (whether or not currently employed).

0304.10.05.20 *MA Individual Under 21*

REV:06/1994

For an individual under 21 applying for MA, not living in an institution, the State of Residence is the state in which the caretaker relative is a resident unless Medicaid eligibility is based on blindness or disability, then the State of Residence is the state in which (s)he is living.

0304.10.05.25 *Institutionalized MA Individual*

REV:06/1994

For MA individuals living in institutions, applying for MA (Public, Medical or Group Care Facilities), the State of Residence is as follows

- o If a state places an individual in an institution in another state, the state making the placement is the State of Residence, irrespective of the individual's indicated intent or ability to indicate intent; otherwise,
- o If over 21, the State of Residence is the state where the individual is living with the intention to remain there permanently or for an indefinite period; however,
- o If the individual is under 21 (or is age 21 or older and became incapable of indicating intent before age 21), the State of Residence is:
 - that in which his/her parent(s) or legal guardian, if one had been appointed, resides; or,
 - that of the parent applying on the individual's behalf if the parents reside in separate states and no legal guardian has been appointed.
- o If the individual became incapable of indicating intent at, or after age 21, the State of Residence is the state in which the individual was living when (s)he became

incapable of indicating intent. If this cannot be determined, the State of Residence is the state in which the individual was living when (s)he was first determined to be incapable of declaring intent.

In any case, the state in which the institution is located is the State of Residence unless that state determines that the individual is a resident of another state according to the above rules.

0304.15 REQUIREMENT FOR SOCIAL SECURITY NUMBER

REV:06/1994

Section 2651 of the Deficit Reduction Act (DEFRA) of 1984 (P.L.

98-369) requires that each individual (including children) requesting Medical Assistance furnish his or her own Social Security Number (SSN) as a CONDITION OF ELIGIBILITY for the program. Since many MA applicants/recipients are receiving Social Security benefits through claim numbers, which may be the Social Security number of a parent or spouse, with a letter(s) suffix, they must now procure their OWN SSNs.

The applicant or recipient must be notified that the furnishing of the SSN is a condition of eligibility and that the number will be utilized only in the administration of the MA Program, including its use in verifying income and eligibility.
